

Add your own door to your custom shed.

Custom

Unique and different

At Tru-Bilt Fabrications we can design and manufacture steel structures that are not the norm. All Tru-Bilt Custom Sheds and steel structures are independently engineered and fully certified. Over the years we have manufactured some unusual and interesting steel shed structures. If a custom shed is what you are after then a Tru-Bilt Custom Shed is for you. A Tru-Bilt Custom Shed will always be designed in the most cost effective manner. We have been manufacturing and designing Steel Structures since 1966. With

our experience we can assist you to find a design that is suitable without blowing your budget. It may be that you would like to supply your own doors in which case we can manufacture the structure to suit the door requirements. Previous clients have selected to clad part or all of the structure with a special type of cladding and we can accommodate this. We try to be as flexible as possible when it comes to Custom Sheds. Please run your ideas or special requests by us.

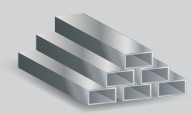

Apply your own cladding to your custom shed

Add your own fitout to mezzanine floor frame

Make your ideas a reality

Manufacturing with steel equals flexibility
