

Machinery Sheds

Tough and long lasting

Tru-Bilt is a well known and trusted company for manufacturing Machinery Sheds. A Tru-Bilt Machinery Shed will protect your equipment and machinery from the harsh Australian climate. We have been manufacturing Machinery Sheds for 50 years and we design our sheds to be practical allowing easy access for large items. Whether you need to store a range of large heavy earthmoving equipment or smaller equipment, we can manufacture a Tru-Bilt Machinery Shed to suit your exact requirements.

for maximum head room clearance, maximising the usable space. We use only the highest quality materials to manufacture your Machinery Shed which means it will perform for a very long time.

Your Tru-Bilt Machinery Shed will provide excellent protection for all of your machinery and equipment. The end product needs to be the perfect size and style to suit your needs. A Machinery Shed can be sheeted in practical ZINCALUME® that is economical or sheeted in a COLORBOND® colour so it blends into the surrounds.

The open Rectangle Hollow Section (RHS) frame also allows

Store your tractors, bulldozers and other machinery.

Spacious and secure for machines of all sizes.
